

**You have enough on your mind.**  
Your doctor says you need an MRI. Traveling out of town for an important test is the last thing you need to think about.

Relax. Those days are over, thanks to the new Magnetic Resonance Imaging Suite we've built in Greenville at Muhlenberg Community Hospital.

Now you can get this high-tech procedure right here at home from people you know using state-of-the-art equipment.

Our new facilities are part of MCH's Diagnostic Imaging Services. Along with our new MRI, we also have a new 16-slice CT scanner, Ultrasound, Nuclear Medicine, Mammography and other life-saving technologies with an experienced staff, including Board-Certified Radiologists.

Ask your doctor. It'll be one less thing to think about. For more information call: **270-338-8416**.
